SIX MONTHS

LAST DATE FOR APPLICATION:
26 November 2020

ABOUT THE PROGRAMME

Energy audit studies in buildings have shown large potential for energy savings both in government and commercial office buildings. Energy Effeciency opportunities in new and existing buildings can be split into two categories – New building programmes and Upgrade Programmes for existing buildings. Study of the available data has shown that there is an urgent need for improved energy efficiency of buildings. There exist job markets within and outside the country having clear energy audit job descriptions in the industries. Post Covid-19 India may focus on energy efficient buildings including retrofits, technology replacement, adoption of energy efficient appliances etc to create more jobs.

ABOUT THE PROPOSED TRAINING PARTNER

Renewable Energy Centre, Mithradham, Kochi
http://www.mithradham.com/

Mithradham, established in 1996, is the first fully renewable energy powered educational institution in India, dedicated solely for the promotion of environment and energy. The centre is autonomous in energy, food and management of waste. Mithradham is SETNET partner for NISE training programmes under MNRE and ANERT.

SKILL TRAININGS PROVIDED

The students are trained for preparing them to perform tasks of the energy auditing discipline. A few of them are:

- Identify and prioritize energy saving measures.
- Identify opportunities to improve operational efficiency
- Collect and analyse field data related to energy usage.
- Research issues related to environment or sustainable business practices.
- Inspect facilities or equipment to ensure specifications are met.

PROSPECTIVE JOB POSITIONS

- Audit Assistance
- Energy Analyst
- Energy Training, and the like in energy audit companies
